

GUIDANCE NOTES FOR THE FOUNDATION YEAR FINANCIAL ASSISTANCE FUNDING - 2024/25

Please read the following guidance notes carefully before completing an application.

Overview

The purpose of this fund is to help Foundation Year Students who commenced their course in the **2024/25** academic year, are currently enrolled, and who may require financial assistance in a range of circumstances, ranging from a shortfall in their finances to help with meeting additional exceptional costs after they have started their course (which would cause a financial shortfall if support was not provided).

The Fund

A non-repayable fund of between £750 and £3,000 is available. Depending on the level of demand, the award amount may be capped below the maximum to ensure sufficient funding is available to students in need of assistance throughout the academic year.

Eligibility criteria

All current Astrophoria Foundation Year students are eligible to apply for the funding.

Students will be expected to have accessed all available funding from the Astrophoria Foundation Year before they can be eligible for Foundation Year Financial Assistance Funding. Students should first discuss their situation with the Foundation Year Welfare Lead.

How to apply

You should have been given a link to begin your application for Foundation Year Financial Assistance Funding by the Foundation Year Welfare Lead, and should not proceed with an application until you have discussed your circumstances with them (you will be required to confirm this at the start of the application). Students who are unable to complete the form electronically should contact welfare@foundationyear.ox.ac.uk.

Your application will consist of your own application form alongside the required supporting documentation (part A). You will also require a supporting statement from the Foundation Year Welfare Lead ([part B](#)). All parts must be received in order for the application to be considered. When you submit your application, the Foundation Year Welfare Lead will be contacted and asked to submit part B within 7 days.

The Astrophoria Foundation Year will send an email confirming receipt of your completed Foundation Year Financial Assistance Funding application (all parts) to both you and your college welfare lead. Any queries will be addressed to you, with your college welfare lead copied into the email, where relevant.

Applications received after the Friday of Trinity Term week 9 will not be processed, except where students are participating in a resit after this date.

Application deadlines

Applications are processed on a rolling basis during term time, from week -1 to week 9 of each term. The Astrophoria Foundation Year is responsible for processing and reviewing applications for Foundation Year Financial Assistance Funding. Applications will be assessed within 30 days of receiving your completed application. Outside of term time applications may take longer to process. Students will be contacted via email to confirm the outcome of their application upon completion of the assessment.

We may ask for clarification relating to your application or for further information. If this is the case, you will receive an email from Astrophoria Foundation Year. If no response is received within 21 days, we will consider the application withdrawn.

Evidence required to support the application

In order to complete your application, you will need the following evidence ready to upload. Failure to do so could prevent your application from being processed:

- Official bank/building society statements showing the 30 September 2024 balance for all current and savings accounts in your name or joint, in the UK or Overseas.
- Official bank/building society statements as above for the last two months. These should be annotated with explanations of any incoming transactions over £150, or explanations included in a separate document.
- Outgoings related to additional expenditure you wish to be considered in your application should also be included (e.g. car costs, medical costs).
- Evidence of your rent/mortgage/college accommodation costs for the year, such as battels statements or a tenancy agreement.
- Your financial notification (Student Finance Breakdown) showing your maintenance funding where you have applied for it
- Evidence of your net earnings (i.e. after tax, if applicable) from employment for the current academic year (1 October-30 June or 31 October, depending on length of academic year).
- Evidence of any scholarships or awards, either external or from your college, department or the University.
- Evidence of any UK Government benefits
